Dear **Hiring Manager**,

As a highly resourceful **Technical Operations Engineer at MarketForward**, my experience aligns well with the qualifications you are seeking for your **Software Engineer**, position, and I am certain I would make a valuable addition to your team.

An eager learner, I pride myself on my ability to successfully take on new challenges and develop ever-expanding areas of expertise. In addition, I have played a key role in the success and accolades my current company has received over the years. I am recognized for my ability to spearhead and implement new procedures to drive performance, efficiency, and effectiveness. Calm and easygoing, I am effective in meeting goals even when faced with difficult or time-sensitive circumstances.

Graduate with a degree in Computer Information Systems. I spend most of my day learning to code and dedicating my time to learn and practice programming, my dream for web development is to create websites for everyone to use. As a Developer I'm be able to create beautiful and responsive websites. Creating projects that are capable of saving people time, having a clean design, aesthetic layouts are a passion of mine. It is great to learn something new and challenging every day.

- Positioned to leverage analytical and operational knowledge to experience developing, creating, and modifying applications software engaging in innovative web designs.
- Applies analytical and design skills for hardware and software systems while sharing best practices to drive talent performance improvement.
- Excellent at identifying user needs to implement Web site content, graphics, performance, and capacity.
- I would enjoy speaking with you further regarding the **Software Engineer** position. Please feel free to contact me at 1(773) 332-2682. I look forward to hearing from you.

Thank you for your time and consideration.
